"The Store Where Quality Counts"

You Can Stoop With Ease in a Gossard

War-time economies have made home duties more important, and anything that lightens the burden of housekeeping becomes a war-time essential. Gossard Corsets make it possible for any woman, properly corseted, to go from one task to another, without taxing her strength. Scientifically designed and made, Gossard Corsets preserve youthful lines and give perfect support to the abdomen and back muscles. And they never "creep up" on the body, regardless of any position you take.

MODEL 250 has a medium low bust, rather straight in outline, lightly boned, and a long enough skirt with elastic section in the back to corset the figure splendidly from the waist down. It has no equal at the price, and its wearing service and style are decidedly out of the ordinary.

Priced at \$3.00

Other Gossards at prices ranging from \$2.50 to \$7.50

An expert corsetiere always in attendance.

High Water Did Some Damage in Gardens and Cellars.

Although the water was very high in Montpelier as a result of the rain which occurred for 36 hours preceding noon Sunday, but little damage was done in the city proper. The pump in the basement of the Langdon block No. 2 was operated nearly all Sunday, the water running into the cellar from the North branch, which also overflowed on upper Elm street, doing damage to the gardens and cellars of the residents in that section of the city. Summer street was like a miniature lake, most of the day, water coming from Hubbard park. A small bridge was washed away near West Berlin, so that highway traffic was interfered with. The Central Vermont railway had a little trouble from small washouts.
